

How One Fleet Reduced Their Compliance Risk While Saving 20% on Toll Management

OVERVIEW

A mid-sized fleet was self-managing **over 50,000 tolls per year** and searching for a solution to reduce their fleet tolling costs and risks.

BACKGROUND

Many fleets that self-manage their own tolling struggle with the risks of fines and penalties that come with unpaid tolls. This fleet was in search of a way to not only make their toll management easier and more affordable but to also eliminate the risk of registration holds and penalties that could bring their fleet to a halt.

CHALLENGE

Not only was self-managing tolls **costing this fleet over \$236k per year**, but it was also exposing them to an unacceptable level of risk and high expense due to unpaid tolls.

SOLUTION

Verra Mobility was able to help this fleet **save over \$48k per year** in toll management costs while eliminating the risks of registration holds and penalties associated with unpaid tolls.

BENEFITS

- Reduction in admin time and cost
- Toll violation elimination
- Fleet vehicle compliance
